9 - Does the instructor show equal respect for all regardless of ethnicity, gender, beliefs, age, disability, or class? Briefly explain.

Bruce Elgort

| | |
|----------------------|----------------|
| Response Rate | 14/19 (73.68%) |
|----------------------|----------------|

- Yes he does, then that he also very helpful when helping out students in class.
- He's extremely respectful.
- Bruce Elgort does an amazing job of all of this. Everyone is equal.
- yes
- equal respect for everyone. Bruce is very helpful and considerate
- Mr Elgort is hands down the best instructor I have had the pleasure of learning from. He is hardworking, honorable, and deserving of the utmost respect; which he naturally gives to each and every one of the students in his class. As a person of color I have never been treated, nor have I perceived him to treat anyone else, any different for any reason. He should be the standard that every instructor at Clark is held to.
- Bruce showed equal respect to everyone and showed no bias in either direction.
- Yes
- Yes he does. Though it's hard to tell with just mostly names, I don't feel like he'd discriminate.
- yes they do show equal respect regardless.
- Yes, he shows equal respect for all.
- as far as I can tell, yes they do
- Yes. I never felt uncomfortable
- I really enjoyed taking this class and he treated everyone with respect.

10 - What specific things has the instructor done especially well in teaching this course?

Bruce Elgort

| | |
|----------------------|----------------|
| Response Rate | 14/19 (73.68%) |
|----------------------|----------------|

- Bruce Has done a great job in teaching and then helping students understand for what students do well and need to improve on.
- He goes above and beyond. He reiterates the most important concepts during lecture, and goes over exactly why certain programs or algorithms function the way they do in a step-by-step fashion. It is easy to follow, even though coding in and of itself isn't the most straightforward or easygoing class. The best thing about this is that he'll give you feedback any time of the week if you message him on Slack, granted he's not busy or sleeping. Fantastic professor.
- Professor Elgort has a very interactive style that works well with this course. I thoroughly enjoyed taking this class.
- responds to feedback and questions quickly and helpfully
- very quick to respond to questions we have, and very helpful. Understands the difficulty of this course, so it is nice to get reassurance at times.
- Everything.
- Bruce is engaging and understands how to reinforce concepts, layering reading with videos and exercises, on top of covering everything in lecture. The use and layout of modules is also exceptional.
- Canvas Layout
- Feedback. He's really good at answering questions and feedback.
- Explaining on what things do in the class and why its there and shows specific uses for them.
- Some things the the instructor has doe especially well while teaching the course is thoroughly explaining and giving examples for the concepts we will be reading about and doing assignments with.
- he's been around to help with any questions
- I liked that he was extremely graceful and understanding of my struggle in understanding the material.
- He provides different solutions and examples.

11 - What specific things could the instructor do to improve the teaching in this course?

Bruce Elgort

| | |
|----------------------|----------------|
| Response Rate | 12/19 (63.16%) |
|----------------------|----------------|

- I feel like everything is going fine in this class and that he is doing stuff well
- Honestly, this is as perfect a professor can be. There are so many resources in Canvas that are very helpful to help you not learn just the concepts, but also how to apply them. Every single one of them are worth reading through because he explains them simply.
- I believe that Professor Elgort is doing an exemplary job.
- not sure
- I have no complaints, criticisms, or corrections; just grateful.
- I see no area that requires improvement. Bruce is doing an excellent job.
- Less repetitive content, more learning that is doing rather than watching, reading, or listening
- Student interaction is lacking. It's hard to want to listen to just him lecturing.
- Dont think i have anything in mind that needs improvement other than adapting to students needs if they need help but they already do that well.
- I cannot think if any specific things the instructor could do to improve the teaching in the course.
- If possible, subtract some of the content from the course. I felt like there was too much to digest and it diminished my ability to learn. Also, along with cutting some content, it would be great if he would expand on the content that is left and focused the course on thoroughly understanding those concepts. Depth rather than breadth.
- I dont think he needs to change anything because he's teaching is very good. I really enjoyed this class
