- Bruce Elgort demonstrated no biased towards the aforementioned groups.
- yes
- In every interaction I have witnessed, Bruce addresses everyone respectfully and with no regard whatsoever of ethnicity, gender, beliefs, age, disability, or class.
- Yes, Bruce does a great job of showing respect for all his students.
- Yes, the instructor shows equal respect.
- Bruce shows respect for all with their work regardless of background
- Yes he does. Bruce is very respectful and makes sure nobody is falling behind. Everybody receives fair treatment.
- Yes
- Yes. My instructor was always respectful in the classroom and to my classmates.
- Yes, i have never heard him speak of anyone disparagingly
- Yes he is respectful to everyone.
- Yes Bruce has always showed equal respect to all his student
- Yes!
- yup
- yes
- Yes the instructor showed equal respect for everyone.
- Absolutely!
- Yes
- Absolutely without a doubt
- Of course.
- I haven't encountered anything during this course where I felt Bruce was now showing respect for all nor has he ever made any comments that are inappropriate. He treats all this students the same and makes us feel important.
- Yes. Bruce is very empathetic and respectful to all of the students regardless of their personal situation.
- I feel that Bruce does an excellent job of respecting all of his students, regardless of all criterion. He does a great job of making everyone feel comfortable and has one of the best learning environments I have had the pleasure of attending. I always am excited to take one of his classes.

10 - What specific things has the instructor done especially well in teaching this course?

Bruce Elgort

Response Rate	
23/25 (92%)	

- Bruce Elgort is always there through Slack to help students with their work.
- he gives us good projects to learn from and adjusts his teaching for people to stay engaged.
- Bruce is available, approachable and incredibly easy to learn from.
- Bruce has provided content that will be extremely relevant to our future Web Development careers, focusing on projects and assignments that build our base knowledge but also provide portfolio worthy content.
- He has taught the content well
- Bruce makes sure everyone is helped and on the right track
- Making the information understandable so it can be applied easily to different scenarios
- He always takes the time to ensure that every student understands the material.
- Professor Elgort was especially great at giving meaning to difficult concepts in the subject.
- He's really passionate and dedicated. With how much and how often the subject matter changes he continues to stay up to date.
- Showing us how to access JSON data. Were not quite done with that unit but so far it has been a really cool learning experience and he has done a great job teaching it.
- Bruce has always been extremely reachable
- Bruce excels at listening to students. He explains concepts clearly, and if a student is confused he explains it and makes sure the student does understand.
- Answered students' questions thoroughly and provided lots of help out of class hours.
- letting the students ask questions if they get stuck
- Providing help on work when needed.
- Learning topics well and knowing alternative ways to teach it. Being available when we need help.
- He provided engaging projects for us to do to work on our skills. He is always available when you have questions.
- Bruce makes sure everyone gets a chance to ask questions and encourages them to do so. He gives you time (even out of class) and he genuinely wants students to succeed. I find him to be very approachable. Bruce is such a good teacher than when I have classes with other teachers, I'm just comparing them to him and thinking of all the things the other teacher could be doing better, like Bruce.
- He goes over a lot of basic things in javascript that are incredibly useful and will be used in all aspects of programming for the web.
- Bruce will actually take the time and meet with each student to make sure they understand how to complete an assignment or give helpful suggestions on improving it.
- The lectures are very interactive with demos, questions and answers, and some fun thrown in.
- Bruce has done a great job at structuring his coursework, and everything seems to fit together nicely. He supports his assignments with videos and examples, and his lectures cover everything needed to excel in the class. He goes above and beyond to make himself available via zoom or chat, and is quick to respond and clear up any issues that I may have.

11 - What specific things could the instructor do to improve the teaching in this course?

Bruce Elgort

Response Rate	21/25 (84%)
----------------------	-------------

- I cannot see any need for improvement.
- last term i asked for more in time class to get hands on work while learning and he has done exactly that. i feel like my learning has improved with that. theres only so many resources online to help you when trying to learn new concepts so the in class learning is great.
- My only critique (and it's a small one) is that he will get off on a tangent sometimes.
- I think Bruce already does an amazing job with all of his courses. He opens a lot of his free time up to help students whenever they need it. Nothing to improve in my opinion.
- a
- There has been little that is needed for improvement. Great job!
- Nothing. Bruce is great at covering the core concepts. As always it has been a great experience
- Nothing I can think of.
- I like the way the course is laid out. I don't like doing my classes online but I've enjoyed my online classes with Bruce.
- I really enjoyed the JavaScript course and honestly I don't think anything really needs to change I think its a great course. its not quite ended yet but I have learned a great deal.
- None at the moment. I enjoy his teaching style
- Nothing comes to mind.
- na
- Nothing.
- Have more classes to teach
- I can't think of anything. This was a good class.
- Don't take it personally if a student is having trouble or a lot going on in their life it's not your fault and not a poor reflection on you.
- This class is very good, but there should be a second javascript class instead of the video production or photoshop class.
- Not sure where Bruce really needs to make any adjustments in his teaching style. He's done an excellent job teaching in each course I've had with him.
- Nothing. Really, it is a learning curve. Some things work better than other things depending on the students in the class at the time. I don't think improvement is needed because Bruce often adjusts as he understands what is most effective to the learning process.
- Nothing comes to mind when reading this question. I would really like to attend his classes in person, so if he could get back in the classroom, that would be helpful.
