## Fall 2020 Tenure-Track Evaluation - WPTE

**Course:** HTMLFundamentals(Online): CTEC 122 (Online)-Section 2298  
**Instructor:** Bruce Elgort \*  
**Response Rate:** 10/15 (66.67 %)

### 9 - Does the instructor show equal respect for all regardless of ethnicity, gender, beliefs, age, disability, or class? Briefly explain.

**Bruce Elgort**

<b>Response Rate</b>	9/15 (60%)
----------------------	------------

- yes
- Yes Mr. Elgort shows equal respect to all students. I have not had any negative experience with Mr. Elgort where I was disrespected in any way. I have not heard of or seen any instances of disrespect by Mr. Elgort either.
- Yes.
- Yes.
- Of course he does he did an amazing job I wouldn't want anyone else to teach me this course
- Yes, there has never once been an issue with a respect or even the slightest hint of favoritism.
- YES! Personally, I struggle with a disability and he was incredibly accommodating to me and really made me feel comfortable in call. This is in addition to the coursework which often emphasized accessibility in our field of study. Additionally, he is fun but very professional so as to foster a really great learning environment for all students.
- NA
- Yes i do believe bruce shows respect to everyone regardless of ethnicity, gender, beliefs, age, disability or class. I never saw anything that would make he didn't respect that.

### 10 - What specific things has the instructor done especially well in teaching this course?

**Bruce Elgort**

<b>Response Rate</b>	8/15 (53.33%)
----------------------	---------------

- everything
- Mr. Elgort has done a good job of conveying the material of the class in manageable chunks that are easy to understand. That way it is easy for beginners to learn and retain the information of the coursework.
- Organizing coursework on Canvas.
- Providing us with videos and various other resources to help us understand and implement new concepts.
- He did everything great! He's an amazing professor I was impressed with the availability to troubleshoot and help fixing problems whenever I needed it via zoom!
- the demonstration videos are wonderful
- The first thing that I was impressed by was his passion for the subject. He is clearly knowledgeable and enjoys the subject which makes learning from him a delight. The class has a clear structure and each module builds off of the one before, while also letting you practice what you already learned. Really went a long way to making me feel like I was actually learning the material instead of memorizing things. His use of the Slack messaging platform is kind of brilliant. Students have an easy route to get help whenever they need it, the class was totally remote but students were able to participate in discussions on the app like a normal class setting. All in all one of the easiest setup for professor/student communications I've experienced. Overall, Bruce was an amazing teacher. I will be seeking out other classes with him.
- Some specific things bruce has done especially well while teaching this course was always giving feedback and being understanding.

### 11 - What specific things could the instructor do to improve the teaching in this course?

**Bruce Elgort**

<b>Response Rate</b>	6/15 (40%)
----------------------	------------

- Improve quality of instructional videos (structure, preparation, content, less background music)
- No comment.
- Nothing he did great and all the videos where perfect. The quizzes where evened out with exit slips, so even if you didn't I know some terms on time, you dint get a bad grade for it, I was nervous at first. But thank you bruce for your awesome teachings this semester!
- Maybe a little more detail on the later assignments in the class
- My only real frustration with this class, which could simply be chocked up to my learning style, is the tests. Sometimes I would spend so long triple checking my answers and they'd still be wrong. The actual subject is sort of hard to build tests around because many times the questions were hard to visualize for me in writing alone. As I said, this could very well just be my style of learning clashing with the tests.
- i honestly think bruce did a really good job teaching this course. Maybe if he made some more videos on how to do certain thins but other than that i believe he did a really good job.
