11 - What specific things could the instructor do to improve the teaching in this course?
Bruce Elgort

Response Rate	12/16 (75%)

- He could update some of the videos to use VS code rather than Idle.

- There's not a lot of problems with the course.

- Nothing that i can think of

- Nothing that I can think of.

- Nothing, he is perfect.

- Nothing he did very good!

- Can't think of anyting

- Do more instructional videos.

- Honestly, Bruce is doing an excellent job. The only thing I would recommend is more videos on coding examples.

- I would like more tips videos for the assignments because it helps me understand the concept for that week

- There were some fuzzy parts while learning but, that is mainly due to the barriers of online teaching.

- The course is already fairly well optimized for online learning and almost everything the professor did was beneficial. Its honestly difficult to find a major fault. If anything, I think I felt a little overwhelmed with the amount of different resources available and canvas modules. Other than that, I do think Slack was underutilized by students and perhaps there could be more activities on slack to encourage engagement on the app and between students.
