- He gives alot of examples
- Videos and Ponoptu's extremely helpful.Can we keep them? That would make this customer very happy.
- Bruce teaches with his heart. It's blatantly obvious that he cares about what he does and that he wants each and every student to do their absolute best and to really learn and grow. I'm very grateful that I was able to take a course with him and it very much helped me ease my nerves about going back to school after so long. Thanks for everything, Bruce.
- Bruce has been very timely with his responses to myself and other student. Bruce goes out of his way to make a screen recorded video with a voice over to provide feedback in a much clearer manner.
- Instructor does an excellent job of helping students when they are struggling with a subject or a point within an assignment.
- He makes sure everyone is able to keep up with the class without slowing things down. He is always avail to be contacted for help.
- He has broken down some of the more difficult concepts and explains things in ways that make sense. He also has given us the tools to be able to apply what we learn in the real world which is very useful.
- I like working with Bruce. He always has lots of energy and is willing to help.
- Providing examples
- Bruce is always in touch. I asked him questions about his class, and he answered me even on Sunday. Bruce explains in very understandable language. I, whose English is not his native language, understand it very well. If one of the students asks Bruce to explain something, he does it with great desire. I think Bruce Elgort is the best teacher at Clark College.
- Everything was explained with extreme detail and he was very flexible with hours outside of class to help.
- This was by far my favorite course this quarter and Bruce is my favorite instructor I've had so far at Clark. He's exceptionally helpful, explains things with kindness and understanding. All the concepts were explained well and we had many opportunities to practice what we learned. Bruce makes learning fun.

11 - What specific things could the instructor do to improve the teaching in this course?

Bruce Elgort

Response Rate	10/17 (58.82%)
----------------------	----------------

- all good
- I, notice I said I, have a tough time translating the instruction and correlating it too the videos,though it can all be found in their. I feel this is a University level course. I am happy for the quality of tutors or I would be sunk. I haven't been able to follow along with class very well with demos and felt behind.
- Never stop doing what you're doing.
- N/A
- Quiz questions could perhaps be revised a little, some are phrased in a way that makes them a bit confusing.
- I don't think there is much that they need to improve with this course.
- Not really sure. I've had no issues with the class so don't really see any areas that need improvement.
- Nothing that I can think of
- I think Professor Elgort is doing well. The only request is that he prints and does everything a little slower. He's very fast. He stops and asks if everyone has time. But it's still very fast for me! On the other hand, it's impossible to fall asleep in his lessons, because you don't have time for it!
